Summary

Curious and driven Computer Science undergraduate with hands-on experience in Python, frontend technologies, SQL, and OOP concepts. Enthusiastic about continuous learning, exploring emerging technologies, and developing user-friendly applications. Eager to contribute to a dynamic team while gaining industry exposure.

Skills

Programming & Web Technologies: Python, HTML, CSS, AI Fundamentals

Database & Querying: SQL

Core Concepts: OOP, Problem Solving, Data Structures (Basics)

Experience

Full Stack Development Intern

May 2025 – July 2025

SmartBridge Educational Services (Remote)

HTML, CSS, JavaScript, Python, SQL

- Built responsive full-stack web applications with CRUD operations and backend integration.
- Collaborated with team members to debug issues and deliver project milestones on time.
- Improved application performance by identifying and fixing bugs.
- Applied full stack concepts to develop scalable and user-friendly solutions.

Projects

AI Content Creator | *Python, AI*

Ongoing

- Developing an AI-based content generation system to automate text creation.
- Applied NLP concepts to generate structured and meaningful outputs.
- Improved content relevance using preprocessing and prompt-based techniques.
- Reduced manual effort by automating repetitive content tasks.

Certifications

IBM SkillBuild – Artificial Intelligence Fundamentals: Gained knowledge in ML, NLP, AI lifecycle, and real-world applications.

SmartBridge Full Stack Development Internship Certification: Completed training in frontend, backend, and database integration.

Deloitte - Data Analytics Job Simulation: Participated in Deloitte Data Analytics Simulation, applying data analysis, problem-solving, and visualization techniques to derive business insights

Education

Computer Science & Engineering

Sri Venkateswara College of Engineering, Tirupati

Graduation: 2027

CGPA: 9.3 / 10
